

2015 Bond Fact Sheet

Buckeye Elementary School District voters will vote on one important ballot question on November 3, 2015.

Voters will vote on a \$27 million bond program to fund much needed district infrastructure projects. The district is working to be fiscally responsible and keep the tax rate constant.

Over the last six (6) years the State has reduced \$7,853,453 in capital funding from Buckeye Elementary School District. Limited funding for building repairs and renovation is not sufficient to renovate schools or adequate to support all of the educational and technological programs that the District provides for its students.

If approved, the \$27 million Bond funds will go to:

New School #7 - \$17 M

A recent demographic study projects Buckeye Elementary School District to grow to almost 9,000 students in the next 10 years nearly doubling our current enrollment.

2015 Bond Fact Sheet (Continued)

Renovations and Additions to Existing Schools - \$7.5 M

School Security and Safety system upgrades, Flooring, Roofing, Heating, Ventilation, & Air Conditioning units/Controls, Grounds, Fencing

Technology Infrastructure - \$1.0 M

Networking upgrades, Servers, Wireless Access points, Network Cabling

Pupil Transportation Vehicles - \$1.5 M

School Busses and Special Education Transportation vehicles
