

## **Illness/Emergency**

In order to protect students from the possible spread of disease, please keep your child home if the following symptoms are present: diarrhea, vomiting, red or inflamed eyes, severe cold symptoms, or skin rash. Please do not send your child to school when he/she is ill.

Any student with a temperature of 100 degrees or higher may not attend school. Children may not return to school until they are fever free for 24 hours without fever reducing medicine. The health assistant may send your child home for symptoms of illness, even without the presence of a 100 degree or greater fever.

Please make arrangements to have either a parent or another adult available at all times to pick up a child who is ill or injured. If both parents are unavailable, the school will begin calling the adults listed by the parents on the Emergency list. Important: Please inform the school immediately of any phone number or address changes.
